

## Vetacs Vacuum Press

The complete system consist of the table, rubber blanket, rewinder for rubber blanket, air buffer tank and a vacuum pump.

### Vacuum table

Vetacs vacuum table is modular and is built in many different sizes. The module size is with a length of 2300 mm and a wide of 3000 mm easy to customize to a size that fit to almost every production facility.

The table is made of steel profiles with a double border at the top and a 22 mm Plywood plate. The table can be delivered with an epoxy top coating (optional).

Standard table sizes.

	Lenght	in mm	Wide	
2 modules	4.600	mm	3.000	mm
3 modules	6.900	mm	3.000	mm
4 modules	9.200	mm	3.000	mm
5 modules	11.500	mm	3.000	mm
6 modules	13.800	mm	3.000	mm
7 modules	16.100	mm	3.000	mm
8 modules	18.400	mm	3.000	mm
9 modules	20.700	mm	3.000	mm
10 modules	23.000	mm	3.000	mm

Vetacs was established I 2007. The production and service of adhesive application systems formerly sold as CASCO or SIKA systems is now sold under the brand Vetacs, a division of VETA Industry A/S.

## Rubber blanket

The rubber blanket is 1,2 mm EPDM rubber

## Rewinder for rubber blanket

The rewinder for the rubber blanket is moving on rails at the side of the table

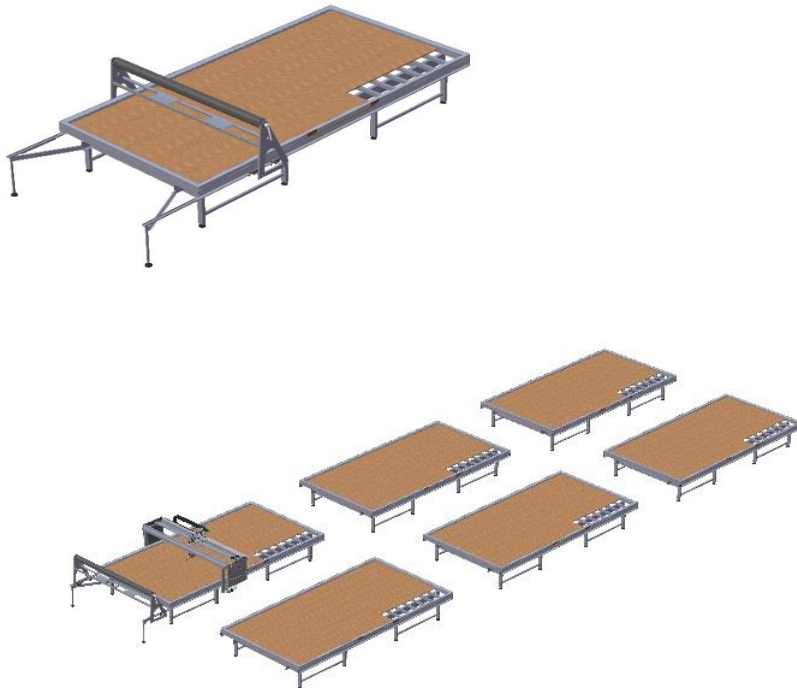

## Air buffer tank

The size of the air tank depends on the table size and number of tables

## Vacuum pump

The claw vacuum pump have been developed specifically for industrial applications in which constant vacuum, high pumping speed and completely oil-free compression are essential. The claw vacuum pump operate contact-free; neither oil nor operating fluids are required during compression.

The technology of claw vacuum pumps permits extremely high efficiency levels to be achieved, reducing energy consumption and increasing performance. These vacuum pumps operate contact-free and require almost no maintenance. In practice, this means 60% lower energy and operating costs compared to conventional vacuum generators.

Vetacs was established I 2007. The production and service of adhesive application systems formerly sold as CASCO or SIKA systems is now sold under the brand Vetacs, a division of VETA Industry A/S.
